

THE
WATERFRONT
VANCOUVER

MEDIA KIT

A WORLD-CLASS URBAN DESIGN AT THE WATER'S EDGE

The Waterfront Vancouver development includes a seven-acre riverside park with 3,300 homes, and 32 acres of retail, high-end restaurants, and Hotel Indigo. All of this, anchored by a 90-foot cable-stayed pier extending out over the Columbia River with mountain views, makes for a one-of-a-kind development has poised to transformed the city of Vancouver.

THE WATERFRONT MASTER-PLAN

32-Acre Urban Development South-facing on the Columbia River

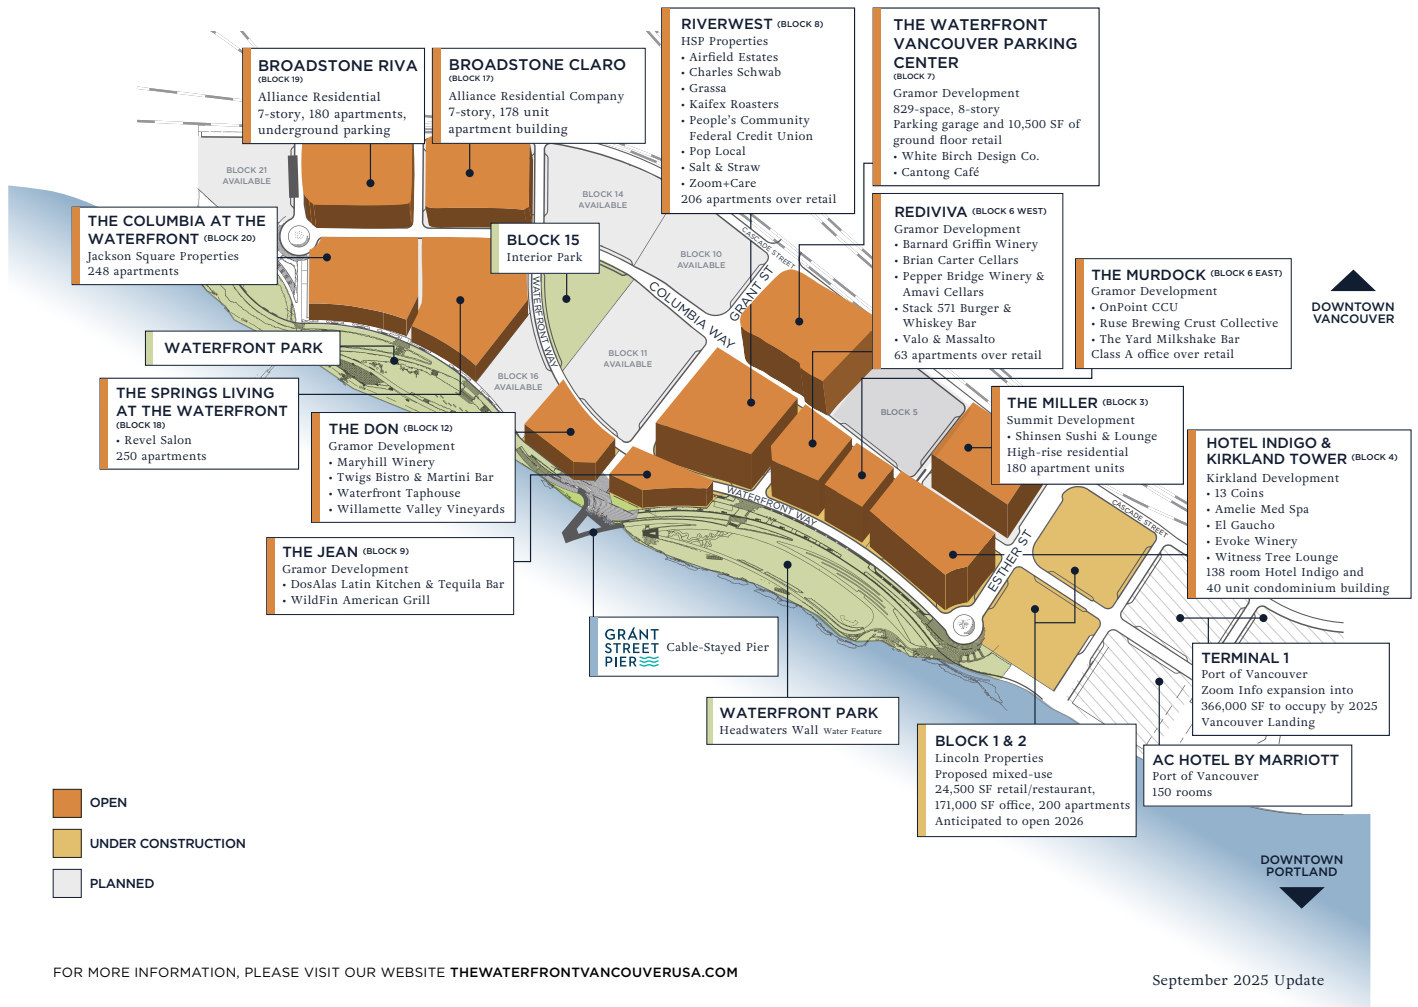

1.25 Million Feet of Class A Creative Office Space

250,000 SF of Planned Restaurant and Retail Space

3,300 Planned Residential Units

1/2 Mile Waterfront Park

**PROJECT LOCATION
SITE MAP**

THE WATERFRONT ACCESS

Unprecedented views of the Waterfront Park and the Columbia River

5 Minute Walk to Downtown Vancouver

15 minutes to Portland International Airport

20 minute Drive to Downtown Portland

Grant Street Restaurants feature two flagship restaurant buildings with a front row seat to south-facing views of the Columbia River.

The Jean (Block 9) is intended to evoke a modern pavilion feel, with extensive glass and an iconic soaring roof. As a dynamic backdrop to Grant Street Pier and Waterfront Park, it offers over 15,000 SF of space on two floors with beautiful outdoor dining and dazzling riverfront views on both levels. WildFin American Grill is located on the ground level. DosAlas Latin Kitchen & Tequila Bar is located on the second floor.

The Don (Block 12), modeled after turn of the century shellhouses for crew boats, was designed for up to four full-service restaurants and features more than 28,000 SF in building space. Simple horizontal roof lines with sliding doors and expansive waterfront decks offering abundant outdoor seating. Twigs Bistro and Martini Bar and Maryhill Winery are open on the ground floor. Waterfront Taphouse and Willamette Valley Vineyards are on the 2nd floor.

THE CENTERPIECE OF THE WATERFRONT

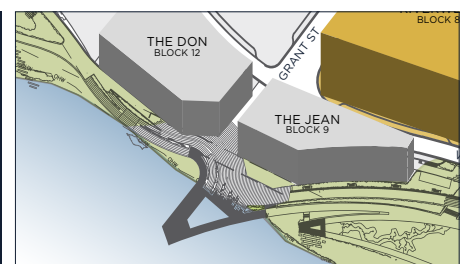

Vancouver artist, Larry Kirkland envisioned a cantilevered pier suspended above the mighty Columbia River, evoking the hull and mast of a ship. This connection to the river is reinforced by an image of the Columbia Rediviva, a ship that is the Columbia River's namesake, on the pier's anchorage. The pier is a powerful symbol of Vancouver's reconnection with its waterfront and a thrilling visual backdrop while exploring the park. The pier is lit by architectural lighting design firm Fisher Marantz Stone to highlight the brilliant white pier against the night sky.

“This type of pier is something that is new to the region and I don’t know of any place in the country that has something like this”

- Larry Kirkland

THE WATERFRONT PARK

LARRY KIRKLAND, PWL LANDSCAPE ARCHITECTS, FISHER MARANTZ STONE

A TRUE COLLABORATION

The 7-acre Waterfront Park connects the entire development with an inviting, greened area for the public to enjoy. It was essential to the development's vision of making the waterfront accessible to the public. The extension of the Waterfront Renaissance Trail through the park integrates the Waterfront Park with the surrounding community, giving urban riverfront access to residents for the first time in over 100 years.

The park experience is the result of a partnership between internationally recognized designers:

- Landscape architects PWL Partnership made the river the chief inspiration for its winding, flowing design.
- Public art designer Larry Kirkland envisioned the state-of-the-art pier and Headwaters Wall as community gathering places that educate and inspire.
- Architectural lighting design firm Fisher Marantz Stone helped make use of the nighttime environment with dramatic lighting inspired by theatre lighting that gives the park excitement and accessibility after dark.

HEADWATERS WALL

THE WATERFRONT PARK

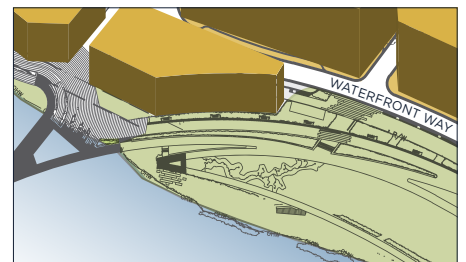

AN EDUCATIONAL ART INSTALLATION

Headwaters Wall is an educational art installation within the park that teaches about the Columbia River Watershed. Designed by Larry Kirkland, the wall features a bronze topographical map of the watershed as well as water play feature, creating a hands-on experience for children and visitors of all ages.

THE PERFECT URBAN RETREAT

Situated just a short stroll away from the Vancouver Convention Center, The Waterfront Vancouver is perfectly suited for the 138 room Hotel Indigo. Equipped with a large second floor event space and balcony facing the water, Hotel Indigo is a new, modern addition to Vancouver's downtown, featuring three restaurants, including a sky bar on the top of the hotel with a spectacular view of the river.

Attached to Hotel Indigo is The Residences at Kirkland Tower: a 10 Story Condominium building featuring 40 boutique condominiums in 1, 2 or 3 bedroom open floor plans with panoramic city and river views.

LARRY KIRKLAND

PUBLIC ART DESIGNER

Larry Kirkland has collaborated with design professionals and community leaders creating meaningful places throughout the United States including works for The Brown University Alpert School of Medicine, Pennsylvania Station, New York City, The University of Iowa Children's Hospital, The California Museum of Science, Los Angeles, the Federal Courthouse, Los Cruzes, the American Red Cross Headquarters, and the National Academies of Science, both in Washington DC.

During the past 20 years he has been engaged by communities to create specific Memorials to honor individuals, communities and events. These include The Civil Rights Garden in Atlantic City, The American Veterans Disabled for Life Memorial in Washington DC, the Southwestern Pennsylvania World War II Memorial and the National Center for Civil and Human Rights in Atlanta.

Outside the USA he has installations including: Putra World Trade Center, Kuala Lumpur, Malaysia, Hong Kong Central Station and Kansai International Airport, Osaka, Japan.

Mr. Kirkland has extensive experience on public art selection and review panels. He has written art master plans for the City of Denver Civic Center Office Building, and the National Academy of Sciences. As a member of the master plan design team for New Jersey Transit 45 mile Hudson-Bergen Line, Kirkland helped establish an innovative arts inclusion for emerging and local artists, designers and craftsmen.

Kirkland has been a recipient of a Fellowship from the National Endowment for the Arts and awarded Alumni of the Year from his alma mater, Oregon State University. He is a member of the GSA Design Excellence Peer review panel and served for six years as a council member of the Public Art Network, Americans for the Arts.

PWL Partnership has created rich landscapes for iconic structures around the world by integrating urban development with nature. Their “place making” philosophy has paved the way for numerous award-winning designs with accolades from acclaimed groups such as the American Institute of Architects, Canadian Society of Landscape Architects, the Urban Development Institute and more.

Some of PWL Partnership’s most notable landscape designs are found in Canada, including New Westminister Pier Park, Southeast False Creek Waterfront, and the Vancouver Convention Center Expansion Project.

FISHER MARANTZ STONE

ARCHITECTURAL LIGHTING DESIGN

CHARLES STONE - PRESIDENT

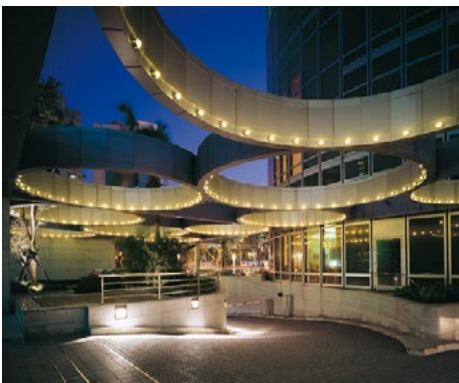

Fisher Marantz Stone provides an understanding and sensitive approach to light as an integral architectural material which supports the idea of a space and the human activities within it. Since 1971, the firm has created effective, innovative, and economical lighting solutions for over 5,000 challenging projects around the world. Strength and variety are derived from the diverse backgrounds and points of view of the principals. Continued involvement in professional entertainment lighting, theatre design consultation, basic lighting research, and teaching serves to enhance the firm's creative approach to designing architectural lighting.

A successful lighting design begins with an idea. The team's early involvement in fundamental decisions is essential to push the design beyond the conventional and familiar to achieve a unique and inspired vision. The process must begin by talking with the Client and the Architect to understand needs and goals. A dialog follows to learn how the Architect will approach the program and develop it into a realized image.

FMS have applied this approach to notable projects including: Burj Khalifa, Dubai; Jin Mao Tower, Shanghai; Taishin Bank Tower, Taipei; Venetian Macau Resort Hotel & Casino, Macau; MIT - Simmons Hall, Massachusetts; Seattle City Hall, Washington; Chanel Boutique and the J. Paul Getty Center, Los Angeles; Four Seasons Hotel - Boston, New York, and Milan; Citygarden, St. Louis; New York Public Library, Grand Central Terminal, Radio City Music Hall, and the American Museum of Natural History's Rose Center for Earth and Space, New York City; and the Washington Monument in Washington, DC.

BARRY A. CAIN

PRESIDENT OF GRAMOR DEVELOPMENT, INC.

ENHANCING COMMUNITIES

Barry Cain owns and directs Gramor Development, Inc., a commercial retail real estate company specializing in the development of retail shopping centers and restaurants based in Tualatin, OR. Since 1985, Gramor consistently has been one of the most active commercial developers in the metropolitan Portland area, having completed more than 70 projects.

Projects include the forthcoming Waterfront Vancouver, a 32 acres development, in Vancouver, WA. Recently completed developments include Happy Valley Crossroads anchored by Fred Meyer in Happy Valley, Oregon, Timberland Town Center anchored by Market of Choice in Portland, Oregon, Kruse Village, Lake Oswego, Oregon, Parkway Village at Sherwood anchored by WalMart in Sherwood, Oregon, Wilsonville Old Town Square anchored by Fred Meyer in Wilsonville Oregon, Lacamas Crossing in Vancouver, Washington anchored to Costco Wholesale, and Progress Ridge TownSquare in Beaverton, OR featuring Cinetopia and New Seasons Market. In

addition, Lake View Village and A Street Station are two Gramor developments that have helped revitalize downtown Lake Oswego, OR.

In addition to running Gramor Development, Barry also owns and operates five restaurants. Barry opened the full-service Asian bistro, FiveSpice Seafood + Wine Bar in downtown Lake Oswego in 2005 and Café Murrayhill in Beaverton in 2006. In 2018, Pizzeria sul Lago, opened in downtown Lake Oswego. In 2021, Murrayhill Taphouse opened in Beaverton. In 2022, Waterfront Taphouse opened in The Don building at Grant Street Restaurants at The Waterfront, Vancouver, WA. In 2024, Lake View Taphouse opened in Lake View Village in Lake Oswego, Oregon.

Prior to starting his career in real estate development and restaurant operations, Barry worked as purchasing manager for Ping Golf Clubs for eleven years in Phoenix, Arizona and sold residential real estate in the Seattle market for two years. He enjoys traveling, playing tennis and spending time with his two grown sons and four grandchildren.

In 2016, Barry was awarded the Portland Business Journal Executive of the Year award. In 2010, Barry was awarded Commercial Real Estate's CEO of the Year by the Portland Business Journal. Gramor is consistently ranked in the top 10 of Commercial Real Estate and Development companies.

Barry is a jazz music enthusiast and has served on the board of PDX Jazz that hosts the Portland Jazz Festival.
